

Modular Air Cooled Chiller (No Tank and Pump)

Standard Features

- Heavy duty welded, tubular steel frame with high gloss powder coat finish and laminated polyethylene cabinet
- U.L. Listed, and EPA Compliant, eco-friendly R410a refrigeration condensing unit
- Single refrigeration circuit with Copeland scroll compressor with crankcase heater
- Air cooled, high ambient, vertical discharge, condensers for 100°F ambient with fan cycle control
- Weather proof electrical panel with single point power connection and 24 vac control circuit
- Remote control panel for indoor installation provides lighted on/off switches and digital thermostat
- Stainless steel brazed plate evaporator with low pressure compressor interlock safety
- Auto reset low pressure safety; manual reset high pressure safety
- Externally equalized thermal expansion valve, liquid line filter drier, and sight glass
- Low water flow compressor interlock safety locks out compressors in low flow condition
- Non-ferrous water lines with FPT connections insulated with 1/2" closed cell insulation
- Warranty: one (1) years limited parts, five (5) years limited compressor warranty
- Systems leak checked, pressure tested, run tested under load and shipped operation ready

Options & Accessories

- Receivers for 90% refrigerant storage (heated and insulated for temperatures below 30°F ambient)
- Condenser coil coating for corrosion protection in coastal areas
- Fan speed control to maintain steady head pressure in cold ambient
- Voltage and phase monitor in 2 through 7.5 ton
- Cabinet mounted glycerin filled fluid supply pressure gauge
- Cabinet mounted, glycerin filled refrigeration pressure gauges
- Cabinet mounted, analog fluid inlet and outlet gauges
- Inhibited propylene glycol concentrate or 65% / 35% premix in 55 gallon drums or 5 gallon carboys
- Castors for portability
- · Factory authorized technician for startup and training

| Physical Data | | |
|------------------------|------------------------------|--|
| Dimensions: | 43" L x 31" W x 33"H | |
| Ship Weight: | 500 lbs. | |
| Minimum Clearances: | 30" All Sides 120" above Top | |
| Noise Rating: | 77 dBA @ 10 feet | |
| Fans CFM: | 4700 cfm @ 125°F | |
| Tank Capacity: | None | |
| Connections: | 1.0" FPT CHWS and CHWR | |

| Electrical Data | | | |
|------------------------|------|-------------|--|
| Power Supply: 460/3/60 | | | |
| Compressors: | LRA: | 1 @ 75 Amps | |
| | RLA: | 10.6 Amps | |
| Fan Motors: | FLA: | 1@ 1.3 Amps | |
| Total Circuit: | FLA: | 11.9 Amps | |
| | MCA: | 15 Amps | |
| | MOP: | 25 Amps | |
