

15 Ton - 2 Stage CAVCS1504TZ 460/3/60

## **Recirculating - Air Cooled Chiller (with Tank and Pump)**

## **Standard Features**

- U.L. Listed, and EPA Compliant, eco friendly R410a refrigeration condensing unit •
- Single refrigeration circuit with two Copeland scroll compressors and two stages of cooling •
- Air cooled, high ambient, vertical discharge, condenser for 100°F ambient; •
- Fan cycle control provides head pressure control down to 0°F ambient •
- Weather proof electrical panel with single point power connection to compressor contactor •
- 24 vac control circuit with component sequenced terminal strip for easy troubleshooting •
- Remote control panel with electronic thermostat, digital temperature indicator lighted switches •
- Stainless steel brazed plate evaporators with hot gas bypass capacity control and solenoid valve .
- Externally equalized thermal expansion valve with liquid line solenoid valve, filter drier, sight glass •
- Copper water lines with FPT connections and insulated with 1/2" closed cell insulation •
- Water flow safety switch locks out compressor in no flow condition •
- Internal bypass loop prevents compressor dead heading •
- Lifetime polyethylene reservoir with cabinet mounted fill port and external level gauge •
- High head, cast iron centrifugal pump with nominal capacity of 2.4 gpm/ton at 100 ft. hd. •
- Cabinet mounted CHWS outlet pressure gauge and analog temperature gauge •
- Powder coated, welded steel frame with laminated polyethylene panels •
- Warranty: One (1) year parts, five (5) year compressor limited warranty •
- Leak checked, pressure tested and run tested under load prior to shipment

## **Options & Accessories**

- Receivers for 90% refrigerant storage •
- Heated and insulated receiver for ambient temperatures below 30°F •
- Nonferrous piping in lieu of copper for de-ionized water or corrosive fluids •
- Condenser coil coating for corrosion protection in coastal areas and • caustic environments
- Cabinet mounted, glycerin filled refrigeration pressure gauges •
- Sanitary, double wall, evaporator for potable water •
- Inhibited propylene glycol concentrate in 5 or 55 gallon containers •
- Closed system reservoir •
- Startup & training by Factory authorized technician .
- Factory authorized contractor for installation
- Castors for portability

Р	hysical Data	Power	
Dimensions	93"L x 44"W x 74"H	Comp	
Shipping Weight	2130 lbs.		
Min. Clearances	30" All Sides 60" Above Top	Fan M	
Noise Rating	88 dBA @ 10 feet	Pump	
Fans CFM	12,000 cfm @ 125°F		
Tank Capacity	100 Gallons ( Atmospheric )		
Connections	1.5" FPT CHWS and CHWR	Total C	

Electrical Data				
Power Supply	460/3/60			
Compressor	LRA ea	2 @ 100 Amps		
	RLA ea	2 @ 12.2 Amps		
Fan Motor	FLA	3 @ 4.2 Amps		
Pump Motor	H.P.	2.0		
	FLA	4.3 Amps		
	FLA	32.9 Amps		
Total Circuit	MOP	45 Amps
